# Fall Conference 2016

*September 16-17*

Washington State Academy of Audiology

*Embassy Suites, SeaTac*

# Michael Valente, PhD

Dr. Valente completed his doctoral degree at the University of Illinois. For nearly 30 years, he has been associated with the Washington University School of Medicine in St. Louis, where he has served as director, professor, researcher, clinician, and more. In each of these roles and throughout his career, he has focused on the many challenges of amplification. As a researcher, his work has yielded important insights into the functions of dual and directional microphone technology, real-ear verification, and treatment options for single-sided deafness. As a clinician, he takes the essential next step of translating his research into clinically relevant practices. As an educator, he converts these practices into instructional content for highly popular workshops and courses around the world. And as a remarkably productive author and editor of books, chapters, and articles, he puts it all down in writing for the rest of the profession and posterity.

## Presentation Topics:

Do real ear measures really make a difference in overall outcomes?

BiCROS - Recent research outcomes of technology options available to your patients.

Maintaining evidence based principles in our ever-changing Audiology culture.

# Schedule of Events

## Friday, September 16<sup>th</sup>

8:30 AM – 9:00 AM

Registration & Welcome breakfast

9:00 AM – 12:00 PM

Speaker – Michael Valente

12:00 PM – 1:00 PM

Lunch

1:10 PM – 2:10 PM

Speaker cont. – Michael Valente

2:20 PM – 4:40 PM

Exhibitor Round Robin

## Saturday, September 17<sup>th</sup>

9:00 AM – 9:30 AM

Registration & welcome breakfast

9:30 AM – 12:00 PM

Speaker – Dave Fabry

12:00 PM – 1:00 PM

Lunch

1:10 PM – 2:10 PM

Speaker cont. – Dave Fabry

2:10 PM – 3:10 PM

Business meeting

3:20 PM – 3:50 PM

Student Research Presentation

# Dave Fabry, PhD

Dr. Fabry, is Vice President of Audiology and Professional Relations at Starkey Hearing Technologies. He holds a Ph.D. in audiology from the University of Minnesota. His professional experience includes positions as a Research Audiologist at Walter Reed Army Medical Center, Chief of Audiology at the Mayo Clinic in Rochester, Minn., and Vice President of Professional Relations and Education for Phonak Hearing Systems. He was Chief of Audiology at the University of Miami Miller School of Medicine. Fabry is also a prolific writer, having served as an Associate Editor for Ear and Hearing, Editor of American Journal of Audiology, Associate Editor for Audiology Online and Editor of Audiology Today. He has published more than 50 articles in peer-reviewed journals. Fabry has presented widely in the U.S. and internationally and has served as a board member and president of the American Academy of Audiology, from which he received the Distinguished Service Award in 2009.

## Presentation Topics:

Innovation Beyond Technology: How to pull our heads out of the sand.

The FDA, PCAST, PSAPs and Audiology: Planned changes and disruptions that result from the recent FDA decisions and what it means to Audiologists.
